Mooresville, Indiana,
March 5, 1940.

The Board of Trustees of the Town of Mooresville met in regular session, Tuesday, March 5th, at 7:30 P. M., with all members present.

Minutes of the meeting of February 6th were read and approved as read.

Moved by Sage and seconded by Denny that Treasurer's report be accepted, Motion carried.

Clerk-Treasurer read letter received from Indiana State Board of Health relative to Sewer Works Short Course given at Purdue University, March 25-29, 1940, inviting the Board of Trustees to nominate one man from Mooresville sewage plant to attend this School. Clerk-Treasurer reported that Mr. Aldrich had already filed application of enrollment with the State Board of Health.

Mr. Antrim reported that he and Mr. Foley had attended the Municipal League Meeting at Indianapolis on February 8, 1940. At which meeting the league advised the municipalities not to pay the Gross Income Tax until some thing definite had been determined, and Clerk-Treasurer was instructed to withhold payment of the tax until farther notice.

A number of Citizens were present and presented two petitions for sewers to be constructed as W. P. A. Projects. Which are attached hereto and made a part of these minutes.

Mr. Harold Page, Representative of the Works Progress Administration was present, and explained how this could be worked out, and said that a survey should be made to see whether or not these sewer projects would be feasible.

It was suggested by the members of the Board that the citizens engage Mr. A. H. Moore, the engineer who made the survey for the sewer in Mooresville, to make a preliminary survey to determine how much it would cost and see whether or not they would want to go ahead with the project.

Some of the citizens were in favor of putting in these sewers under a Barret law, and Mr. Page advised that this could be done, by the Town letting a contract to an Engineer, who would be responsible to the Town. He said it would probably take 45 days for the project to go through after the plans and specifications had been approved by the State Board of Health.

The Clerk-Treasurer was instructed to write Mr. Moore, inquiring if he had a complete survey of the Town, and if in his opinion it would be advisable to connect these sewers to the sewer main.

Clerk-Treasurer reported that the F. E. Gooding Amusement Company had signed a contract to furnish rides at the Old Settlers Picnic for \$100.00 and the Electricity, and had paid the usual reservation fee of \$25.00.

Clerk-Treasurer reported she had received several inquiries about exclusively privileges at the Picnic, and the Board decided to grant no exclusive privileges, except for mechanical rides to the F. E. Gooding Amusement Co.

Mr. Antrim reported the eaves of the shelter house at the Park needed painting and instructed Mr. Aldrich to have them painted.

Mr. Aldrich reported they had made a fill on Harrison Street, and after discussing the matter with Miss Mary Scott, had made an approach to the street on the Scott's sisters land so they could come on to the street, and later Miss Scott had complained that the approach was too soft to permit the delivering of sand from their land, and asked the Town to furnish a man to help gravel the approach. Mr. Aldrich was instructed to furnish a man to help gravel same.

Mr. Elmer Marley complained of water standing in front of his and Mr. Mowery's houses and asked that something be done about it. Mr. Equals said that in order to fill in this low place, it would be necessary to put in a tile to carry the water away. It was decided to leave this matter to the Street Committee.

Several partially dead trees along the streets were reported needing removing, as they are hazardous. Mr. Aldrich was instructed to look into the matter and have the trees removed where necessary. Street Committee was instructed to help in this matter.

Thornberry brought up the matter of side walks on West Washington Street being in bad condition and should be repaired. Equels reported a portion of the walk on East Washington Street near Goose Creek had the dirt washed out from under one side and should be looked after.

Aldrich asked about placing a Red Reflector on the gate at the Dead End of Harrison Avenue, but it was decided to put up the gate and decide later about the reflector.

Clerk-Treasurer reported that Franklin Jones had inquired what he would be required to pay to connect sewer on Part Lot 16 in Mooresville. Addition, where no assessment had been paid on the lot, and advised he would like to connect to the old connection, which had been put in for the old sanitarium. As it was reported three houses were to be built on Part lots 15 and 16, it was decided by the Board that only one connection could be made for \$3.00 inspection fee and the other two connections would be required to pay the \$25.00 fee for connecting and the \$3.00 inspection fee, and the Clerk-Treas. was so instructed to advise Mr. Jones.

Mr. Aldrich reported on the Fire Inspection School given by the Purdue University and said the State Fire Marshall advised that Talc should be used to put out fire caused by burning oil, and the Board instructed Aldrich to place an order for two 50 lb. bags to have in case it was needed.

Clerk-Treasurer was instructed to give notice by publication in the Mooresville Times, March 7th and 15th, that on April 2, 1940 at 9:30 P. M. at the Municipal Building the Board of Trustees will receive bids and award a contract for the removal of Garbage from within the Corporate limits of the Town of Mooresville, from the 15th day of May, 1940 and until the 31st day of October, 1940, in accordance with specifications provided by Ordinance C, 1936. The Board of Trustees to reserve the right to accept or reject any and all bids.

Mr. Page, the W.P.A. representative explained that different phases had come up regarding the project which the Town has been working on for some time, and it would be necessary to revamp all the papers and have them signed again, and as the maps of the Town and the cross sections had been misplaced it would be necessary for the town to furnish more maps, and Mr. Aldrich was instructed to have Mr. Earle Gilbert make new maps of the cross sections.

Moved by Sage and seconded by Thornberry that all claims be allowed as read. Motion carried.

Mr. Harry Wilson was present and asked about closing off the sidewalk in front of the Mooresville Public Service Office while putting in a new front, also about closing the alley west of the office, while working on the west side, as a protection of people passing and the Board advised him it would be satisfactory for him to do so, when in his judgement it was necessary.

Mr. Antrim reported that members of Women's clubs had asked that the Board of Trustees put enforce the Ordinance providing for a Curfew for Children to retire from the streets and public places of business.

Attorney Foley advised that in 1915 a Law was passed to take the place of the Curfew in towns, and make the parents responsible for the behavior of their children.

After a general discussion it was decided by the Board of Trustees to take no action on the matter at this time.
